

# HEALTH INITIATIVE

## *WHY WE EXIST*

Health initiative team we exist to implement sustainable development goals #SDGs goal number 3 GOOD HEALTH AND WELL BEING that aim to ensure healthy lives and well-being for all.

In the country like Tanzania awareness on different diseases is needed especially to children and youth so as to build understanding and make them aware on how to prevent those diseases.

Our organization team work by providing health education and awareness on different diseases to youth and children in schools and societies. Not only education but also we dedicate our time to encourage and teach youth on Reproductive health.

Health initiative is nonprofit organization situated in TEGETA, Dar es Salaam –Tanzania. It was founded on September 2017 by HENRY MATHAYO and his friends as health experts.

Health initiative team we work with youth and children in schools and societies to give them awareness on different diseases and support them to use surrounding environment to end HIV/AIDS and other diseases.

Also we work through social networks like Instagram and twitter to support World Health organization (WHO) to provide awareness on health education.

## MISSION

- To educate and help community about diseases and their causes, mode of transmission, mode of entry, symptoms, treatment and prevention.
- To give children and youth in schools awareness on different diseases and support them to overcome those diseases.
- To educate and share knowledge on preservation of environment.

## VISION

- Ensuring high standard of education, training and practice among children and youth in the community environment.

# OBJECTIVES

## KNOWLEDGE

- To provide strategies and training programs related to health care within the community
- To develop effective and efficient healthy life style and its benefits to the general public.

## AWARENESS

- Creation of awareness on surrounding environment and expose risks from diseases. Example sewage treatment, water purification, food handling and preservation, drinking and eating habit and others.

# PROGRAMMES

Health initiative team has done a lot of projects in different areas like school both primary and secondary schools. The education taught there was based on preservation of malaria, **HIV/AIDS** and other sexual transmitted disease (**STD's**) and preservation of Environment. The previous project was successful at Kamene high school in Tabata – Dar es Salaam and Chang'ombe primary school in Dodoma.

### ***MIKONO SALAMA PROJECT IN CHANZIGE SECONDARY SCHOOL***

The event was highly successful for form three and form four students. Large numbers of girls and boys were in the same Hall, the number of students of both classes was about 300 students. The team conducted health meetings and supported the students.

**Tokomeza zero** campaign is the education campaign aimed to eliminate and remove zero in schools to ensure good performance in academic issues in Kisarawe district. The campaign was organized by district commissioner Hon. Jokate Mwegelo and her staff.

Health initiative team also agreed and supported Tokomeza zero campaign by donating chalk boxes to the teachers, also every student who attended in the meeting discussion acquired pens and textbooks for studies.
