

ORGANIZATION PROFILE

About PREYO

Introduction

PREYO is a registered social based organization(SBO) running its projects within and outside Dar es salaam region in Tanzania. Where we are with involving in environmental conservation through recycling of plastic wastes, planting trees and provision of education about environment and other project related with environment conservation.

PREYO projects

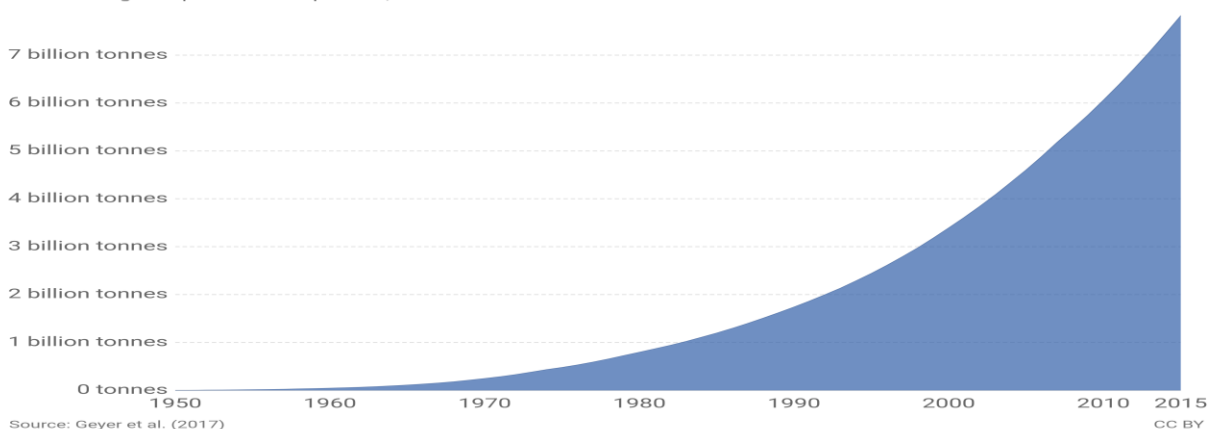

- ✚ Plastic recycling
- ✚ Environmental cleanness
- ✚ Youth empowerment(awareness provision)
- ✚ Oil and gas production

All categories above save a wide range in environmental conservation .

Why PREYO

We believe that protecting environment is to protect our life under the slogan of “OKOA MAZINGIRA USITUPE PLASTIKI”; We believe in innovation, hard work,commitment, partnership and youth involvement(both gender) to bring changes in the world. We consistently maintain high standards for service and products provision to be the leading change makers in our community and the world at large . since the environmental pollution caused by plastic waste is increasing day to day. Consider the data below

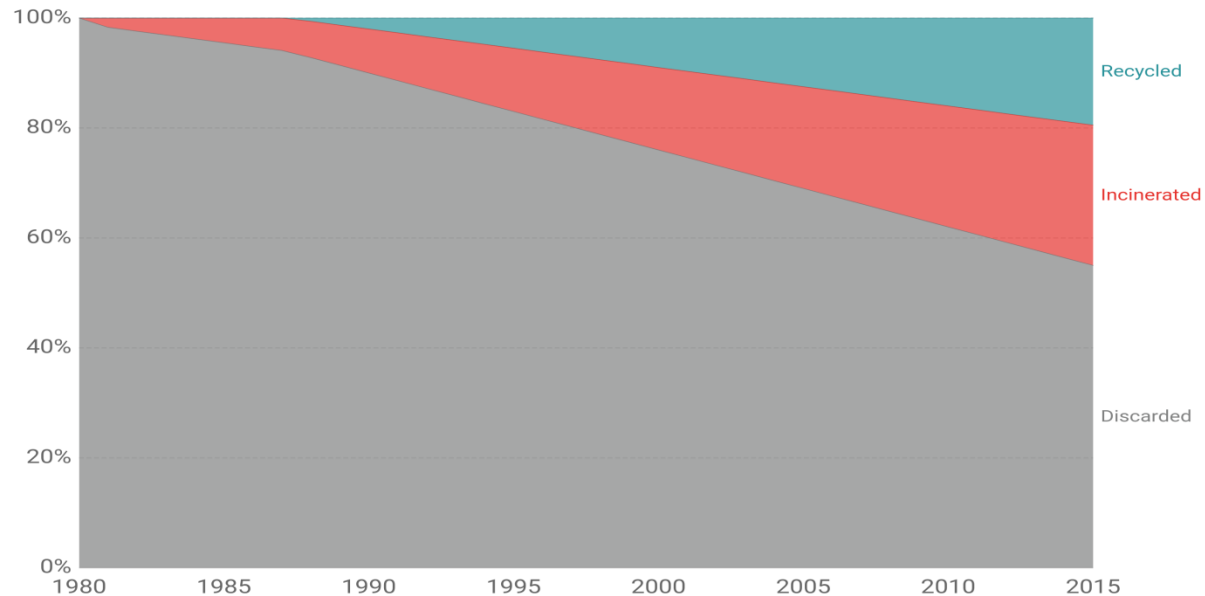

Cumulative global plastics production
Cumulative global production of plastics, measured in tonnes.

Global plastic waste by disposal

Estimated share of global plastic waste by disposal method.

Our World
in Data

CC BY

Taking initiative to increase recycling will help in decreasing the amount of plastics produced and dumped into environment through re-use mechanism.

MISSION

Plastic recycling and youth empowerment organization is to restore, protect and enhance the environment, to ensure public health, environment quality and economic vitality.

VISION

To inspire and challenge Tanzanian community to achieve the highest waste reduction, recycling and reuse goals in the nation through innovation and creativity, sound advancement in science and technology, and efficient programs that improve economic vitality and environmental sustainability.

OBJECTIVES

- ❖ To promote environmental awareness, helping to decrease unsanitary dumping and improper burning of waste.
- ❖ To empower disadvantaged people with stable work in plastic waste collection and up-cycling

- ❖ To create a new plastic up-cycling value chain spanning from the collection of waste to the sale of up-cycled products
- ❖ To develop new and sustainable market opportunities that stimulate the local economy and provide permanent employment opportunities for the local population.
- ❖ To Reduce environmental impacts such as contaminated water, soil, greenhouse gas emission and climate change mitigation through improved waste collection and management.
- ❖ To empower youth to play great role in environmental conservation and use the available opportunities to improve their life economy through provision of education

Activities

- ❖ Collecting plastic wastes and reuse them through recycling to produce new useful products.
- ❖ Planning and conducting events in school to impose the habits of environmental conservation awareness through creating clubs and workshops/events
- ❖ Provision of trainings to the youth on how to use waste as a source of employment hence leave the environment free from hazardous waste like plastics
- ❖ .Organizing and coordinating sports league as a way of gathering people to influence environmental conservation awareness hence giving opportunity to the community to build awareness to work together in community activities.
- ❖ Conducting research about plastic waste management to insure quality and accurate information globally.

Results

- ❖ To reduce environmental pollution caused by plastic waste by decreasing the number of plastics thrown into water bodies and the environment(soil) through recycling and up-cycling

- ❖ To improve community awareness about how to deal with wastes like plastics wastes and how to reuse them.
- ❖ To influence schools to arrange programs dealing with total involvement of students in environmental conservation through our established clubs and workshops conducted.
- ❖ To produce generation with high problem solving skills and creativity.
- ❖ To increase employment opportunities to youth through innovative activities of using wastes.

PRODUCTS/SERVICES PRODUCED

✚ Recycling products.

We create plastic pavements, blocks and tyles

✚ We create domestic and non domestic decorations such as flowers.

✚ Gas and oil production

This is the chemical reaction where from plastic waste we produce liquid oil (petrol and diesel) and flammable gas which can be used for industrial activities as well as to drive heavy machine

🚩 Youth empowerment programs

Here we prepare events, workshops and visitation to schools to open clubs and provide environmental conservation awareness to pupils and teach the youth in universities how to use waste as an opportunity hence leave environment safe also planting trees programs.

ORGANIZATION NEWS AND PUBLICATIONS

PREYO company have been published and announced in many Tanzania medias. Such as,

- ✓ Clouds fm during the event of Tanzania innovation week 2019 held at BUNI-kijitonyama
- ✓ Newspapers . which is HABARILEO of 12th april 2019 and MAJIRA of 09th April 2019 irrespectively to photos

CHALLENGES

We lack modern heavy machine for mass production also capital to cover some costs because PREYO is still in startup stage and has not yet accumulated revenue for it to operate by itself. So we are eagerly searching for funds/investors so that to scale up.

PREYO MANAGEMENT

ABDALAH NYAMBI- (founder) Chief executive officer

ERICK ELIAKIMU- (founder) General secretary

ENITHA MWANGOMANGO- Treasure.

PREYO has employed 10 permanent workers who participate in day to day PREYO activities and twenty waste pickers and collectors.

CONCLUSION.

PREYO is an organization passionate to bring changes in the community and world at large by participating to attain world sustainable goals for now -2030 such as goal 9(industry, innovation and infrastructure), goal 13(climate action) and goal 7(affordable and clean energy) because taking such initiative is the way towards making a world better and safe place to live.

We are eagerly waiting to hear from you so that to send our budget proposal so that we can scale up and grow together.
