Juliana Busasi is a 22 year old Medical Student at Hubert Kairuki Memorial university also Founder of Tanzania Health and Medical Education Foundation (TAHMEF).

Before starting TAHMEF, she has developed skills in organizational management, fundraising and Community Outreach through working as a Chemistry and Biology Part time teacher at Kassa Charity Secondary School in Mwanza Region and Volunteering in Tanzania Medical Students Association Member.

Since then, she has been certified as a Hand wash and Mental Hygiene Trainer by Colgate in Partnership with Tanzania Medical Students Association in 2014, Silver Medal Presenter at the First Kairuki Scientific Conference 2016 and after Reaching out to more than 6,000 Tanzanians With free Health Screening Services in 3 Regions through TAHMEF, she has been recognized And awarded with the Health Sector, Malkia wa Nguvu 2017 Award by Clouds Media Group

“My passion is driven by the desire to empower Tanzanians by investing in good Health since a country with good Health has the potential to achieve development. Good Health is the Foundation to Defeat Poverty and I do not want to be a Doctor who ignores flaws in the Health Sector”
